

Journal - Office of Legislative Counsel
Tuesday - 24 August 1976

Page 2

6. (Unclassified - NDL) LIAISON Per her request, I sent a copy of the Agency publication entitled "Potential Implications of Trends in World Population, Food Production, and Climate" to Barbara Tarris, on the staff of Representative John N. Erlenborn (R., Ill.).

25X1 7. (Unclassified - RJK) LIAISON Called Representative Henry J. Hyde's (R., Ill.) office to report on their inquiry on behalf of [redacted] This firm had recently done some business with the Agency and [redacted] 25X1 had called the Congressman to see whether the product had been satisfactory and whether he could do any further business with the Agency. I had checked with the Office of Procurement and told Representative Hyde's staff member that the product was satisfactory and that if [redacted] 25X1 wished to send his product catalog to the Agency's Procurement Office we would be in contact with him if we could use any of his products. This satisfies the Congressman's inquiry and no written response is necessary.

STATINTL 8. (Unclassified - RJK) LIAISON Received a call from Thelma Shirkey, on the staff of House Select Committee on Missing Persons in Southeast Asia. She said the Committee would like to send a letter to [redacted] and she requested his title and address. I suggested instead that she send the letter to OLC and we would see STATINTL that it got the proper dissemination which she agreed to do. [redacted] was advised.

9. (Unclassified - WPB) LEGISLATION Called Bill Shattuck, on the staff of the House Judiciary Subcommittee on Administrative Law and Governmental Relations, and discussed financial disclosure legislation pending before his Subcommittee. I reiterated several points that were covered in the blind memorandum which I had dropped off with him yesterday. I emphasized that an amendment to section 305 of S. 495 was absolutely essential for the Agency. He said he saw our point and believed that an amendment would not pose too much difficulty.
